Summary

- I am an accomplished Full Stack Developer with a specialization in the MERN stack, experienced in enhancing website user experiences and maintaining software products. My background as a dedicated Physical Therapist has honed my skills in comprehensive patient care and data management. I possess strong analytical skills and have a keen interest in data analysis, enabling me to provide a unique perspective on problem-solving and decision-making. Additionally, my diverse interests, including trading, contribute to my well-rounded skill set.
